INSIGHTS & RECOMMENDATIONS

Strategy	Insights	Recommendations
1. Market & Sales Expansion Strategy	- The US acts as the primary volume engine (high revenue, ~11% margin). - Canada delivers the highest profitability (~26.6%) despite small scale. - North Asia maintains strong margin stability (~19.5%). - EMEA & Africa show the fastest growth (~56–60% YoY).	- Maintain the US as the revenue base while improving pricing discipline. - Selectively expand in Canada & North Asia to maximize margin. - Increase investment in EMEA & Africa to capture high-growth momentum.
2. Product & Sales Portfolio Optimization	- Technology is the core profit driver (~14% margin). - Phones & Copiers contribute the largest share of profit. - Furniture drags overall margin (~7%). - Sales agents focused on Technology achieve higher margins.	- Increase Technology mix within the sales portfolio. - Upsell high-margin products (Phones, Copiers). - Tighten control or rationalize low-margin Furniture lines
3. Sales Capability & Performance Gap	- Revenue is partially concentrated among top performers (~$2.82M vs ~$0.9–1.6M). - Significant margin gap across regions (11%–26%).	- Replicate best practices from high-margin agents across teams. - Strengthen pricing and product-mix coaching in volume-driven regions. - Shift KPIs from revenue-only to margin-based performance.
4. Operational & Risk Control	- Orders grew >50% while return rate remained stable (~5%). - Standard Class drives the majority of return volume due to scale.	- Sustain quality control during expansion. - Optimize logistics costs rather than changing shipping structure.
